Thomas K. Weber
MD FACS

Professor of Surgery, State University of New York
Health Sciences Center
President & Founder, Colon Cancer Challenge Foundation

KEYNOTE SPEAKER

Rebecca Siegel
MPH

American Cancer Society

EVENT OVERVIEW

This summit is co-sponsored by the Colon Cancer Challenge Foundation and Michael's Mission. It is a novel meeting designed for health care providers and researchers as well as Early Age Onset (EAO) Colorectal Cancer (CRC) survivors and their families. The program will provide extensive opportunities for participants to advance their understanding of the rapidly increasing incidence of rectal and colon cancer among young adults under 50 years of age in the U.S. and abroad. This ground breaking program will, for a second year, provide both survivors and health professionals opportunities to leverage each others insights and provide an opportunity for all to hear leading clinicians and scientists on the epidemiology, pathogenesis, genomics and quality of life preserving treatment options for EAO-CRC.

The summit will include lectures as well as workshops and panel discussions designed to facilitate multidisciplinary consensus regarding the priorities of EAO-CRC prevention, clinical care and research moving forward.

FACULTY

Dennis J. Ahnen MD AGAF FACG
University of Colorado School of Medicine

Stephen J.D. O'Keefe MD MSc
University of Pittsburgh

Deborah Alsina
Bowel Cancer U.K.

T. Peter Kingham MD FACS
