

— FOURTH ANNUAL —

# EAO-CRC

EARLY AGE ONSET COLORECTAL CANCER

## SUMMIT 2018

### SPECIAL SYMPOSIUM

Transforming Family Health History Ascertainment and Colorectal Cancer Preventive Services in Primary Care  
*An Update from the NCCRT Family History Early Age Onset Task Group.*

**THURSDAY**  
**APRIL 26, 2018**  
**4:30 PM – 8:30 PM**

**EVENT LOCATION**  
**JW Marriott Essex House New York**  
**160 Central Park South**  
**New York, NY 10019**

**ORGANIZER AND HOST**  
**Thomas K. Weber**  
**MD FACS**  
 Director of Surgical Oncology; Northwest Region  
 at Northwell Health  
 President and Founder, Colon Cancer Foundation

**CO-CHAIRS NCCRT FAMILY HISTORY EARLY ONSET CRC TASK GROUP**

**Paul C. Schroy III**  
**MD MPH**  
 Professor of Medicine  
 Boston University School of Medicine  
 Director of Clinical Research  
 GI Section, Boston Medical Center

**Dr. Dennis J. Ahnen**  
**MD AGAF FACP**  
 Professor of Medicine  
 University of Colorado School of  
 Medicine, Genetics Clinic,  
 Gastroenterology of the Rockies

## EDUCATIONAL OBJECTIVES

- Review the mission, goals and accomplishments of the National Colorectal Cancer Roundtable (NCCRT) Family History and Early Onset Task Group.
- Learn about the importance of Family Health History for colorectal cancer, including advanced adenomas, and its importance in preventing colorectal cancer. This will include current challenges and opportunities surrounding ascertainment and documentation of actionable family health history information in primary care.
- Experience a “First Look” at the NCCRT Risk Assessment & Screening Toolkit for facilitating the identification and management of patients at risk of familial, hereditary and early onset colorectal cancer. This will include a summary of our current state of knowledge on the optimal standards for collecting a family history as well as care and support for the young adult colorectal cancer patient. The Toolkit will include examples of best practices as well as tools and resources available to facilitate efforts to meet these standards.
- Review the leadership roles, challenges, and opportunities for primary care in implementing system-based strategies aimed at promoting appropriate risk assessment and screening of individuals at familial risk of CRC, as well as early diagnostic evaluation of individuals with signs or symptoms of CRC, regardless of age.

## PLANNED PRESENTATIONS

- Opening Remarks
  - *Thomas K. Weber, MD, FACS, Director of Surgical Oncology; Northwest Region at Northwell Health; President and Founder, Colon Cancer Foundation*
- Overview and Introduction to the National Colorectal Cancer Roundtable (NCCRT) and the Family History Early Age Onset Colorectal Cancer Task Group
  - *Dennis Ahnen, MD, AGAF, FACP, University of Colorado School of Medicine*
  - *Paul Schroy III, MD, MPH, Boston University School of Medicine*
- Framing the Familial/Hereditary Component and Other Opportunities to Identify Those Most at Risk:
  - *Heather Hampel, MS, LGC, The Ohio State University Comprehensive Cancer Center*
  - *Christine Louise S. Molmenti, MPH, PhD, Feinstein Institute for Medical Research/Northwell; Donald and Barbara Zucker School of Medicine at Hofstra/Northwell*
  - *Swati G. Patel, MD, MS, University of Colorado Anschutz Medical Center*
    - Lynch, FAP, MYH
    - First Degree Relative With Colorectal Cancer
    - First Degree Relative With Colonic Advanced Adenoma
- First Look – The NCCRT Risk Assessment and Screening Toolkit to Detect Familial, Hereditary, and Early Onset Colorectal Cancer:
  - *Emily Edelman, MS, CGC, The Jackson Laboratory*
  - *Shelly Yu, MPH, American Cancer Society Cancer Action Network, Inc.*
    - Summary of current practices and known barriers related to the identification, screening and management of patients at increased CRC risk;
    - Opportunities with regard to Electronic Health Record Systems;
    - Family history ascertainment and risk assessment tools currently on the market;
    - Overview of the Toolkit goals, core objectives, conclusions and limitations;
    - Suggestions for implementation and dissemination;
    - Plans for future follow up and programming.
- Primary Care Leadership in Colorectal Cancer Risk Assessment: Family Medicine, Internal Medicine, Obstetrics and Gynecology - Invited Faculty Include:
  - *Dennis Ahnen, MD, AGAF, FACP, University of Colorado School of Medicine*
  - *Durado Brooks, MD, MPH, American Cancer Society*
  - *Maureen Killackey, MD, New York Presbyterian/Herbert Irving Comprehensive Cancer Center*
  - *Jennifer Reich, MD, Orange Regional Medical Center and Valley Hospital*
  - *Randa Sifri, MD, Thomas Jefferson University*
