Cancer Research Scholar Awards for the top-ranking abstracts submitted by trainees or junior faculty members attending national and international conferences. Awards provide funding to cover meeting, registration and travel expenses to the conferences. In providing these awards, the Foundation seeks to both support and promote CRC research. The Foundation has a special interest in the biology of early age onset and hereditary CRC. However, research into other areas of CRC (e.g., novel treatments, innovative minimally invasive screening technologies) is also considered. Participating conferences and organizations currently include:

"The Collaborative Group of the Americas on Inherited Colorectal Cancer (CGA-ICC);

"The International Society for Gastrointestinal Hereditary Tumors (InSiGht);

"The Society for Surgical Oncology (SSO); and the Foundation's own "Early Age Onset Colorectal Cancer (EAO-CRC) Summit.

To further support those young or early career investigators focusing their research efforts on the biology of early age onset and hereditary colorectal cancer, the Foundation incorporated an abstract/poster session into its annual Early Age Onset Colorectal Cancer (EAO-CRC) Summit. Topics have included, "Does the Impact of Tumor Sidedness Differ for Young-Onset vs. Later-Onset Colorectal Cancer?", "The Psychosocial and Financial Burden on Caregivers of Young-Onset Colorectal Cancer"

Patients, and "Clinic pathological, Familial, and Molecular Characterization of Rectal Cancer within Early onset Colorectal Cancer."

who understand public health and cancer prevention issues and the role of international organizations in achieving our mission of A World without Colorectal Cancer™.

In this regard, the CCF created and launched an internship program that aims to train young and energetic individuals entering the field of public health especially those interested in cancer prevention. Thus far our interns have come from leading medical schools, public health and communications programs from around the country and even the globe.

During the program interns will review new CRC research studies, attend CRC virtual conferences and update our digital platform and web articles to reflect the latest research on cancer prevention, including diet, exercise, and other health habits as well as avoiding dangerous exposures.

They will proactively research current public health issues in the CRC prevention space, succinctly articulate health research and policy to a variety of audiences and critically assess differing perspectives on health issues - all reflective of a patient's journey through the continuum of care.

Through these internship opportunities, they will learn first-hand about public health and cancer prevention gaining hands-on experience in several possible areas, including communications/media relations, and constituent engagement.

Our entire team, including our social media and PR interns, will work closely with the media to get our message out to the public. Connecting with policy makers and decision makers on a national level to change public policy and working with independent researchers from around the country to bring fair, unbiased and non-corporate-funded information to the public about timely issues that matter to clinicians and patients such as diet and

Fifty publications including covering topics such as colonic neoplasia, the establishment of a colorectal cancer registry, desmoid tumors, gastrointestinal polyps in familial adenomatous polyposis, chemoprevention of colon cancer, and clinical implications of multiple colorectal carcinomas in hereditary nonpolyposis colorectal carcinoma are all included and available for our community members.

THE EARLY AGE ONSET COLORECTAL CANCER SUMMIT

The rates of those diagnosed with late stage CRC under the age of 45 are still increasing at dramatic and alarming rates. The Foundation recognized this trend early on and has taken the lead on addressing the issue by organizing and hosting the nation's only Summit focused on Early Age Onset Colorectal Cancer (EAO CRC). The EAO CRC Summit is a groundbreaking program that provides survivors, loved ones, health care professionals and researchers from around the around the nation and the globe the unique opportunity to advance their understanding of the rapidly increasing incidence of rectal and colon cancer among young adults under 45 years of age, in the U.S. and abroad, in a patient/provider collaborative setting. Leading clinicians and scientists report on the epidemiology, pathogenesis, genomics and lifestyle challenges of EAO (or young adult) CRC. The Foundation takes pride in the fact that the program is powered by the EAO CRC patient community and their families. The Summit is a full day of cutting edge medicine, research, community building, conversation and

action focused on addressing young adult colorectal cancer.

The Foundation held its 7th Annual EAO-CRC Summit virtually on May 14-16, 2021. The entire event was live streamed and videotaped for future use by health care providers, academicians etc.

For the first time CCF, in partnership with the Colon Cancer Coalition and the Colon Cancer Project, hosted a State of EAO-CRC Symposium - The Struggle for Solutions. The Symposium hosted representatives from the state and major city Departments of Health and posed critical questions of attendees such as: 'What is your state doing to accelerate the implementation of universal screening for normal risk on time at age 45?'

The EAO-CRC Summit provided participants the opportunity to hear from and question leading clinicians and researchers on the Emerging Issues, Challenges, and Changing Epidemiology of EAO-CRC, the impact of COVID-19 on EAO-CRC, including topics such as Improving Earliest Possible Diagnosis and Treatment through Timely Recognition of the Symptoms and Signs of Sporadic Young Adult CRC, The Dimensions of the EAO-CRC Problem: Do We Have Accurate, Regular, Up to Date Measurement of Key Metrics Describing the Early Age Onset Colorectal Cancer Public Health Crisis, Risk Assessment/Family History Ascertainment in the U.S., How to Provide Timely, Effective, Quality of life & Fertility Preserving Treatment: What are Key Elements of Coordinated Care for Early Age Onset Colorectal Cancer, Understanding and Addressing Disparities in Early Age Onset Colorectal Cancer, Integrating Music Therapy in Cancer, and How Did This Happen? increasing incidence of EAO-CRC worldwide in a patient/provider collaborative setting.

Leading clinicians and scientists report on the epidemiology, pathogenesis, genomics, and lifestyle challenges of EAO-CRC. The Foundation takes pride in the fact that the agenda of the full day program is inspired by the EAO-CRC patient community and their families, and gives them an opportunity to build connection and community.

For the second year the Foundation offered a critical component to the Summit - CME Accreditation. Health care practitioners were able to claim up to 11 AMA PRA Category 1 Credits™. The Foundation was fortunate to partner with the Northwell Health Office of Continuing Medical Education and the Donald and Barbara Zucker School of Medicine at Hofstra/Northwell for the second year. Adding CME Accreditation allows us to attract a wider audience and broaden the impact the Summit can have on Health Care Practitioners (HCPs). And once again the entire event was live streamed and videotaped for future use by health care providers, academicians, etc.

Our estimated audience reach leading up to, during, and immediately following the EAO-CRC Summit™ is estimated at approximately 4.7 million unique viewers. The direct results of this can be seen in the increase of articles, television and radio interviews, and research publications on EAO-CRC.

The 2019 EAO-CRC Summit™ theme, Performing a Knowledge GAP Analysis and Building a Strategic "Action Plan" to Reduce EAO-CRC Incidence and Mortality, provided participants the opportunity to hear from and question leading clinicians and researchers on the lifesaving potential of timely clinical risk assessment/family cancer health history; earliest possible diagnosis and optimal fertility-preserving clinical care; as well as the

latest information regarding national and international EAO-CRC incidence trends, pathogenesis, and genetics. In addition, this year's program will present a "Research in Progress" segment featuring current NCI-funded and planned EAO-CRC research projects from across America and Europe. Again this year, important breakout sessions based on needs assessments from our survivor community will address challenging issues surrounding palliative care, support networks for caregivers, and a primer on the epigenetics of EAO-CRC specifically requested by our Young Adult CRC Survivor Program Advisory Group.

To further support those young or early career investigators, focusing their research efforts on the biology of early age onset and hereditary colorectal cancer the Foundation incorporated an abstract/poster session into its Annual Early Age Onset Colorectal (EAO-CRC) Cancer (EAO-CRC) Summit.

For the fifth year the Foundation was able to engage a globally recognized faculty including EAO-CRC survivors as well as clinicians, epidemiologists, and researchers from leading cancer centers, advocacy organizations, and research institutions from around the US. Our Faculty represented institutions and organizations including the following: AdCouncil, AliveAndKickn, American Cancer Society, Boston University School of Medicine, Cancer Institute at NYU Langone, Cold Spring Harbor Laboratories, Colon Cancer Coalition, Chicago Gastro LLC., Colorado Center for Personalized Medicine, Colorectal Cancer Alliance, Dana-Farber Cancer Institute, European Organisation for Research and Treatment of Cancer (EORTC), Feinstein Institute for Medical Research/Northwell Health, Fundacion Jimenez Diaz University Hospital, Gastroenterology of the Rockies, Geisel School of Medicine at Dartmouth, Harvard Medical School -

1. LEADING ADVOCACY EFFORTS

The Colon Cancer Foundation is an advocacy leader in the CRC landscape through our collaborative outreach, programming, and international network of action-takers. We have a vision of A World Without Colorectal Cancer™, and that is why we continuously collaborate with scientists at public, private, and government institutions to outline the research priorities that will lead to new drugs and treatment protocols. That is why we organize, host, and fund the EAO-CRC Summit and empower attendees to take

their learning back to their institutions, cities, and communities in order to make change happen!

Our network of action-takers extends across the country and the globe and includes patients, caregivers, researchers, and health care practitioners that represent every aspect of a patient's journey through the continuum of care - from bench to bedside and beyond.

1.AWARENESS BUILDING ACTIVITIES

The Foundation continued its multi-level public awareness and educational program to spread the critical message that CRC is a largely preventable disease - if caught early. Our surround sound campaign includes grassroots, on the ground educational outreach events, television, radio, print, and digital advertising (PSA's.) We also attend outreach events in underserved and uninsured communities in partnership with community health centers and senior centers. Through its outreach events and advertising the Foundation reaches an estimated half a million Americans each year.

What's 20 feet long 12 feet high, 10 feet wide, inflatable, educational and shaped like a colon? The Rollin' Colon of course! Thanks to our supporters, The Rollin' Colon continued its national tour in 2019 crisscrossing the country to educate thousands on colorectal cancer and the importance of early screening. Educational materials are translated into Spanish and Chinese - allowing the Foundation to provide culturally relevant educational materials to the many underserved and underinsured communities we visit.

The Foundation's largest outreach event continues to be the New York Colon

Cancer Challenge. The Foundation celebrated the 16th Annual New York Colon Cancer Challenge on Randall's Island in New York City. The Challenge is a unique opportunity for survivors and affected family members to honor loved ones they may have lost or to celebrate their own victory over colorectal cancer. Hundreds participated in the Remembrance and Prevention walk and run.

In addition, members of the Foundation's community make their miles count in the fight against CRC by running either the United Airlines NYC Half Marathon or the TCS NYC Marathon. Each member of Team Colon Cancer Challenge pledges to make their miles count by raising awareness of the nation's second leading cancer killer and funds to support our mission.

2. PARTNERSHIPS

The Foundation is proud of our direct grassroots outreach to communities and individuals in underserved communities and our work with local, regional, national, and international organizations on the development and implementation of up to date policies and programs that continue to address CRC incidence and death and quality of life issues affecting patients and caregivers.

Members of the Foundation's leadership team support, participate in and serve in a leadership capacity on many organizations including but not limited to the following:

- The C5 Summit (Citywide Colon Cancer Control Coalition), an initiative of The New York City Department of Health and Mental Hygiene (NYCDOHMH);
- The Collaborative Group of the Americas on Inherited Colorectal Cancer (CGA);
- The GI Cancers Alliance (GICA);

LEADING ADVOCACY EFFORTS

The Foundation's advocacy efforts continued in 2021. While COVID-19 was still impacting the world AND CRC screening, it made our message all the more important. Cancer doesn't stop for a pandemic. And, COVID-19 has had a devastating impact on screening rates. Initial data suggests there to be a 90% drop in colonoscopies and biopsies by mid-April of 2020 compared to the same period in 2019. There were an estimated 1.7M missed colonoscopies and unfortunately an estimated 4,500+ excess deaths will occur from CRC over the next decade due to these delays.

The Foundation joined efforts with other organizations in the CRC space encouraging those at greatest risk for CRC to get screened.

In addition, the Foundation is a staunch advocate for timely, effective quality-of-life and fertility preserving treatment for all patients regardless of where they are treated. Whether it be a large academic medical institution in a prominent U.S. city or a community cancer center. GAP 2 of the EAO-CRC Summit focuses largely on advocating for this care as well as equal attention to the caregiver throughout the patient's journey.

The Foundation continued its mission to approach colorectal cancer public awareness campaigns in as creative a manner as possible. We were able to launch a unique partnership with Duclaw Brewing Company and Squatty Potty to raise awareness of the nation's second leading cancer killer and the fact that on time screening saves lives.

The Foundation remained committed to its strategic alliances and partnerships with such organizations as Cancer Health, CURE®, Smart and Strong, and Patients Rising.

Cancer Research Scholar Awards for the top-ranking abstracts submitted by trainees or junior faculty members attending national and international conferences. Awards provide funding to cover meeting, registration and travel expenses to the conferences. In providing these awards, the Foundation seeks to both support and promote CRC research. The Foundation has a special interest in the biology of early age onset and hereditary CRC. However, research into other areas of CRC (e.g., novel treatments, innovative minimally invasive screening technologies) is also considered. Participating conferences and organizations currently include:

"The Collaborative Group of the Americas on Inherited Colorectal Cancer (CGA-ICC);

"The International Society for Gastrointestinal Hereditary Tumors (InSiGht);

"The Society for Surgical Oncology (SSO); and the Foundation's own "Early Age Onset Colorectal Cancer (EAO-CRC) Summit.

To further support those young or early career investigators focusing their research efforts on the biology of early age onset and hereditary colorectal cancer, the Foundation incorporated an abstract/poster session into its annual Early Age Onset Colorectal Cancer (EAO-CRC) Summit. Topics have included, "Does the Impact of Tumor Sidedness Differ for Young-Onset vs. Later-Onset Colorectal Cancer?", "The Psychosocial and Financial Burden on Caregivers of Young-Onset Colorectal Cancer"

Patients, and "Clinic pathological, Familial, and Molecular Characterization of Rectal Cancer within Early onset Colorectal Cancer."

who understand public health and cancer prevention issues and the role of international organizations in achieving our mission of A World without Colorectal Cancer™.

In this regard, the CCF created and launched an internship program that aims to train young and energetic individuals entering the field of public health especially those interested in cancer prevention. Thus far our interns have come from leading medical schools, public health and communications programs from around the country and even the globe.

During the program interns will review new CRC research studies, attend CRC virtual conferences and update our digital platform and web articles to reflect the latest research on cancer prevention, including diet, exercise, and other health habits as well as avoiding dangerous exposures.

They will proactively research current public health issues in the CRC prevention space, succinctly articulate health research and policy to a variety of audiences and critically assess differing perspectives on health issues - all reflective of a patient's journey through the continuum of care.

Through these internship opportunities, they will learn first-hand about public health and cancer prevention gaining hands-on experience in several possible areas, including communications/media relations, and constituent engagement.

Our entire team, including our social media and PR interns, will work closely with the media to get our message out to the public. Connecting with policy makers and decision makers on a national level to change public policy and working with independent researchers from around the country to bring fair, unbiased and non-corporate-funded information to the public about timely issues that matter to clinicians and patients such as diet and

THE THOMAS K. WEBER RESEARCH LIBRARY - In memory of our Founder, the late Dr. Thomas K. Weber, MD, FACS the Foundation compiled an exhaustive list of his publications. Fifty publications including covering topics such as colonic neoplasia, the establishment of a colorectal cancer registry, desmoid tumors, gastrointestinal polyps in familial adenomatous polyposis, chemoprevention of colon cancer, and clinical implications of multiple colorectal carcinomas in hereditary nonpolyposis colorectal carcinoma are all included and available for our community members.

THE EARLY AGE ONSET COLORECTAL CANCER SUMMIT

The rates of those diagnosed with late stage CRC under the age of 45 are still increasing at dramatic and alarming rates. The Foundation recognized this trend early on and has taken the lead on addressing the issue by organizing and hosting the nation's only Summit focused on Early Age Onset Colorectal Cancer (EAO CRC). The EAO CRC Summit is a groundbreaking program that provides survivors, loved ones, health care professionals and researchers from around the around the nation and the globe the unique opportunity to advance their understanding of the rapidly increasing incidence of rectal and colon cancer among young adults under 45 years of age, in the U.S. and abroad, in a patient/provider collaborative setting. Leading clinicians and scientists report on the epidemiology, pathogenesis, genomics and lifestyle challenges of EAO (or young adult) CRC. The Foundation takes pride in the fact that the program is powered by the EAO CRC patient community and their families. The Summit is a full day of cutting edge medicine, research, community building, conversation and

action focused on addressing young adult colorectal cancer.

The Foundation held its 7th Annual EAO-CRC Summit virtually on May 14-16, 2021. The entire event was live streamed and videotaped for future use by health care providers, academicians etc.

For the first time CCF, in partnership with the Colon Cancer Coalition and the Colon Cancer Project, hosted a State of EAO-CRC Symposium - The Struggle for Solutions. The Symposium hosted representatives from the state and major city Departments of Health and posed critical questions of attendees such as: 'What is your state doing to accelerate the implementation of universal screening for normal risk on time at age 45?'

The EAO-CRC Summit provided participants the opportunity to hear from and question leading clinicians and researchers on the Emerging Issues, Challenges, and Changing Epidemiology of EAO-CRC, the impact of COVID-19 on EAO-CRC, including topics such as Improving Earliest Possible Diagnosis and Treatment through Timely Recognition of the Symptoms and Signs of Sporadic Young Adult CRC, The Dimensions of the EAO-CRC Problem: Do We Have Accurate, Regular, Up to Date Measurement of Key Metrics Describing the Early Age Onset Colorectal Cancer Public Health Crisis, Risk Assessment/Family History Ascertainment in the U.S., How to Provide Timely, Effective, Quality of life & Fertility Preserving Treatment: What are Key Elements of Coordinated Care for Early Age Onset Colorectal Cancer, Understanding and Addressing Disparities in Early Age Onset Colorectal Cancer, Integrating Music Therapy in Cancer, and How Did This Happen? Investigating the Causes of Early Onset Colorectal Cancers.

Leading clinicians and scientists report on the epidemiology, pathogenesis, genomics, and lifestyle challenges of EAO-CRC. The Foundation takes pride in the fact that the agenda of the full day program is inspired by the EAO-CRC patient community and their families, and gives them an opportunity to build connection and community.

For the second year the Foundation offered a critical component to the Summit - CME Accreditation. Health care practitioners were able to claim up to 11 AMA PRA Category 1 Credits™. The Foundation was fortunate to partner with the Northwell Health Office of Continuing Medical Education and the Donald and Barbara Zucker School of Medicine at Hofstra/Northwell for the second year. Adding CME Accreditation allows us to attract a wider audience and broaden the impact the Summit can have on Health Care Practitioners (HCPs). And once again the entire event was live streamed and videotaped for future use by health care providers, academicians, etc.

Our estimated audience reach leading up to, during, and immediately following the EAO-CRC Summit™ is estimated at approximately 4.7 million unique viewers. The direct results of this can be seen in the increase of articles, television and radio interviews, and research publications on EAO-CRC.

The 2019 EAO-CRC Summit™ theme, Performing a Knowledge GAP Analysis and Building a Strategic "Action Plan" to Reduce EAO-CRC Incidence and Mortality, provided participants the opportunity to hear from and question leading clinicians and researchers on the lifesaving potential of timely clinical risk assessment/family cancer health history; earliest possible diagnosis and optimal fertility-preserving clinical care; as well as the

latest information regarding national and international EAO-CRC incidence trends, pathogenesis, and genetics. In addition, this year's program will present a "Research in Progress" segment featuring current NCI-funded and planned EAO-CRC research projects from across America and Europe. Again this year, important breakout sessions based on needs assessments from our survivor community will address challenging issues surrounding palliative care, support networks for caregivers, and a primer on the epigenetics of EAO-CRC specifically requested by our Young Adult CRC Survivor Program Advisory Group.

To further support those young or early career investigators, focusing their research efforts on the biology of early age onset and hereditary colorectal cancer the Foundation incorporated an abstract/poster session into its Annual Early Age Onset Colorectal (EAO-CRC) Cancer (EAO-CRC) Summit.

1. LEADING ADVOCACY EFFORTS

The Colon Cancer Foundation is an advocacy leader in the CRC landscape through our collaborative outreach, programming, and international network of action-takers. We have a vision of A World Without Colorectal Cancer™, and that is why we continuously collaborate with scientists at public, private, and government institutions to outline the research priorities that will lead to new drugs and treatment protocols. That is why we organize, host, and fund the EAO-CRC Summit and empower attendees to take

their learning back to their institutions, cities, and communities in order to make change happen!

Our network of action-takers extends across the country and the globe and includes patients, caregivers, researchers, and health care practitioners that represent every aspect of a patient's journey through the continuum of care - from bench to bedside and beyond.

1.AWARENESS BUILDING ACTIVITIES

The Foundation continued its multi-level public awareness and educational program to spread the critical message that CRC is a largely preventable disease - if caught early. Our surround sound campaign includes grassroots, on the ground educational outreach events, television, radio, print, and digital advertising (PSA's.) We also attend outreach events in underserved and uninsured communities in partnership with community health centers and senior centers. Through its outreach events and advertising the Foundation reaches an estimated half a million Americans each year.

What's 20 feet long 12 feet high, 10 feet wide, inflatable, educational and shaped like a colon? The Rollin' Colon of course! Thanks to our supporters, The Rollin' Colon continued its national tour in 2019 crisscrossing the country to educate thousands on colorectal cancer and the importance of early screening. Educational materials are translated into Spanish and Chinese - allowing the Foundation to provide culturally relevant educational materials to the many underserved and underinsured communities we visit.

The Foundation's largest outreach event continues to be the New York Colon

Cancer Challenge. The Foundation celebrated the 16th Annual New York Colon Cancer Challenge on Randall's Island in New York City. The Challenge is a unique opportunity for survivors and affected family members to honor loved ones they may have lost or to celebrate their own victory over colorectal cancer. Hundreds participated in the Remembrance and Prevention walk and run.

In addition, members of the Foundation's community make their miles count in the fight against CRC by running either the United Airlines NYC Half Marathon or the TCS NYC Marathon. Each member of Team Colon Cancer Challenge pledges to make their miles count by raising awareness of the nation's second leading cancer killer and funds to support our mission.

2. PARTNERSHIPS

The Foundation is proud of our direct grassroots outreach to communities and individuals in underserved communities and our work with local, regional, national, and international organizations on the development and implementation of up to date policies and programs that continue to address CRC incidence and death and quality of life issues affecting patients and caregivers.

Members of the Foundation's leadership team support, participate in and serve in a leadership capacity on many organizations including but not limited to the following:

- The C5 Summit (Citywide Colon Cancer Control Coalition), an initiative of The New York City Department of Health and Mental Hygiene (NYCDOHMH);

LEADING ADVOCACY EFFORTS

The Foundation's advocacy efforts continued in 2021. While COVID-19 was still impacting the world AND CRC screening, it made our message all the more important. Cancer doesn't stop for a pandemic. And, COVID-19 has had a devastating impact on screening rates. Initial data suggests there to be a 90% drop in colonoscopies and biopsies by mid-April of 2020 compared to the same period in 2019. There were an estimated 1.7M missed colonoscopies and unfortunately an estimated 4,500+ excess deaths will occur from CRC over the next decade due to these delays.

The Foundation joined efforts with other organizations in the CRC space encouraging those at greatest risk for CRC to get screened.

In addition, the Foundation is a staunch advocate for timely, effective quality-of-life and fertility preserving treatment for all patients regardless of where they are treated. Whether it be a large academic medical institution in a prominent U.S. city or a community cancer center. GAP 2 of the EAO-CRC Summit focuses largely on advocating for this care as well as equal attention to the caregiver throughout the patient's journey.

The Foundation is proud of our direct grassroots outreach to communities and individuals in underserved communities and our work with local, regional, national and international organizations on the development and implementation of up-to-date policies and programs that continue to address colorectal cancer incidence and death and quality of life issues affecting patients and caregivers.

The Foundation continued its mission to approach colorectal cancer public awareness campaigns in as creative a manner as possible. We were able to launch a unique partnership with Duclaw Brewing Company and Squatty Potty to raise awareness of the nation's second leading cancer killer and the fact that on time screening saves lives.

The Foundation remained committed to its strategic alliances and partnerships with such organizations as Cancer Health, CURE®, Smart and Strong, and Patients Rising.
